Dear Christoph Nebel,

sorry for the delay in sending you this copy of David Blair's WAX, but there was some confusion concerning David's travel dates, and we expected him to be in Paris before Vienna. As David Blair will explain, we are acting on his behalf in Paris, attempting to get a theatrical release for the film, and would appreciate it if both cassettes could be returned to us as soon as possible, or David could bring them back with him to Paris.

Finally, I would appreciate it if I could be informed of your activities; I'm a critic/curator/professor in video and media related arts, and am always interested in learning what is going on throughout Europe.

Sincerely,

Stephen Sarrazin
